# Safety data sheet according to 1907/2006/EC, Article 31

Printing date 03.06.2017

Version number 3

Revision: 03.06.2017

SECTION 1: Identification of the substance/mixture and of the company undertaking 1.1 Product Identifier Trade name: Palapress liquid 1.2 Relevant Identified uses of the substance or mixture and uses advised against No lurther relevant information available. . Application of the substance / the mixture Manufacture of dental prothesis 1.3 Details of the supplier of the safety data sheet . Manufacture/Supplier: Kuizer Gmb/ Leipziger Straße 2, 63450 Hanau (Germany) . Informing department: E-Mail: msds @kuizer-dental.com . 1.4 Emergency telephone number: Emergency CONTACT (24-Hour-Number): +49 (0)6132-84463 SECTION 2: Hazards identification 2.1 Classification of the substance or mixture . Lassification according to Regulation (EC) No 1272/2008 Flam. Liq. 2 H225 Highly flammable liquid and vapour. . Skin Irmt. 2 H315 Causes skin irritation. . Skin Sens. 1 H317 May cause an allergic skin reaction. . STOT SE 3 H335 May cause respiratory irritation. . Haard pictograms . Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelied according to the CLP regulation. . Haard pictograms . Labelling according to mean second the support. . Haard pictograms . Haard pictograms . Haard pictograms . Haard second the substance . Haard second the support irritation. . Haard second the support irritation. . Haard second the support irritation. . H317 May cause an allergic skin reaction. . H337 May cause an ellergic skin reaction. . H337 May cause an ellergic skin reaction. . H337 May cause an ellergic skin reaction. . H337 May cause an energicative viritation. . H337 May cause an ellergic skin reaction.	· ·····g acto ee

· Additional information For the wording of the listed hazard phrases refer to section 16.

### **SECTION 4: First aid measures**

· 4.1 Description of first aid measures

· After inhalation Supply fresh air; consult doctor in case of symptoms.

- · After skin contact instantly wash with water and soap and rinse thoroughly.
- · After eye contact Rinse opened eye for several minutes under running water.
- · After swallowing

Rinse out mouth and then drink plenty of water.

In case of persistent symptoms consult doctor.

- 4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

### **SECTION 5: Firefighting measures**

- · 5.1 Extinguishing media
  - Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water.
     For safety reasons unsuitable extinguishing agents
    - Water.
  - Water with a full water jet.

 $\cdot$  5.2 Special hazards arising from the substance or mixture

Can form explosive gas-air mixtures.

Formation of toxic gases is possible during heating or in case of fire.

5.3 Advice for firefighters

· Protective equipment: No special measures required.

## Trade name: Palapress liquid

### · Additional information -

### **SECTION 6: Accidental release measures**

- 6.1 Personal precautions, protective equipment and emergency procedures
- Wear protective equipment. Keep unprotected persons away.
- 6.2 Environmental precautions: Prevent material from reaching sewage system, holes and cellars.
- 6.3 Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (diatomite, universal binders, for small amounts tissues).
- · 6.4 Reference to other sections
- No dangerous materials are released.
- See Section 8 for information on personal protection equipment.

## **SECTION 7: Handling and storage**

 7.1 Precautions for safe handling Keep containers tightly sealed.
 Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges.

- · 7.2 Conditions for safe storage, including any incompatibilities
  - Storage
    - · Requirements to be met by storerooms and containers: Store in cool location.
    - Information about storage in one common storage facility: Not required.
    - Further information about storage conditions:
    - Store cool (not above 25 °C).
    - Store in cool, dry conditions in well sealed containers.
- · 7.3 Specific end use(s) No further relevant information available.

### **SECTION 8: Exposure controls/personal protection**

• Additional information about design of technical systems: No further data; see item 7.

#### · 8.1 Control parameters

· Components with critical values that require monitoring at the workplace:

### 80-62-6 methyl methacrylate

WEL Short-term value: 416 mg/m<sup>3</sup>, 100 ppm

Long-term value: 208 mg/m<sup>3</sup>, 50 ppm

· DNELs

### 80-62-6 methyl methacrylate

Dermal worker industr., I.te., syst. 74.3 mg/Kg/d (human)

Inhalative worker industr., I.te., syst. 210 mg/m3 (human)

· PNECs

### 80-62-6 methyl methacrylate

freshwater 0.94 mg/l (aqua)

## Trade name: Palapress liquid

(Contd. of page 3) • Additional information: The lists that were valid during the compilation were used as basis. · 8.2 Exposure controls · Personal protective equipment General protective and hygienic measures Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin. Breathing equipment: Not neccessary with efficient local exhaust. If exposition to vapours is possible, use breathing protective mask (filter A). Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation If skin contact cannot be avoided, protective gloves are recommended to avoid possible sensitization. Solvent resistant gloves Check protective gloves prior to each use for their proper condition. recommended • Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. · For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable: Butyl rubber, BR Nitrile rubber, NBR · Eye protection: Safety glasses · Body protection: Light weight protective clothing SECTION 9: Physical and chemical properties 9.1 Information on basic physical and chemical properties **General Information** Appearance: Form: Fluid · Colour: Colourless · Smell: Ester-like · Odour threshold: Not determined. Not determined. · pH-value:

### **SECTION 13: Disposal considerations**

### · 13.1 Waste treatment methods

### Recommendation

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Small quantities can be polymerized with the matching system component(s) and the cured solid material can be disposed of with the regular garbage. Larger quantities must be disposed of following the regulations of the local authorities.

### · European waste catalogue

18 01 06\* chemicals consisting of or containing dangerous substances

#### · Uncleaned packagings:

• Recommendation: Disposal must be made according to official regulations.

## **SECTION 15: Regulatory information**

 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### · Directive 2012/18/EU

· Qualifying quantity (tonnes) for the application of lower-tier requirements 5.000 t

- · Qualifying quantity (tonnes) for the application of upper-tier requirements 50.000 t
- · REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction: 3

• 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

### **SECTION 16: Other information**

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

#### · Relevant phrases

H225 Highly flammable liquid and vapour.

H301 Toxic if swallowed.

H314 Causes severe skin burns and eye damage.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H335 May cause respiratory irritation.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.
